

Meet the demand for accumulation + protection

Single-term simplicity with strong growth potential

Changing times may be a good opportunity to change up a product portfolio. Today's volatility concerns and low interest rates need to be met with timely products — created specifically to meet rising demands for growth potential and protection from loss due to market downturns.

Athene developed Athene AccuMaxSM 7 to help meet both goals. An accumulation-focused fixed indexed annuity, AccuMax offers multi-year crediting strategies, attractive Participation Rates and zero risk of losing principal due to market loss. Plus, a suite of new features was designed to give clients added stability in volatile markets.

Learn what makes AccuMax different

- **Custom index options** from two of the world's largest banking and financial organizations allow clients to diversify their premium allocation and manage volatility risk.
- **7-year term options**, including the Annual Interval Sum crediting strategy, help balance protection from market loss with growth opportunity.
- **Zero renewal rate risk.** AccuMax is one of the few products available that sets all rates at issue and guarantees them for the Withdrawal

Charge Period.
