

Coming soon: We're simplifying Asset-Care[®] app submission

Beginning Jan. 1, 2018, a signed illustration is no longer required for Care Solutions Asset-Care products

With our new process, you'll have one less signature to obtain and one less required form to send in, streamlining your point-of-sale process. In all cases, we will provide an illustration with policy delivery, and it will never require a signature.

Remember that the [new Care Solutions calculator](#) is a great tool to provide a quick analysis of guaranteed values. Illustrations are meant to help you explain the value and benefits of Asset-Care. We recommend you use an illustration for this purpose in the sales process, even though a signature is no longer required, and that you submit the illustration or calculator PDF output with the application. *Note: Not all options and products are currently available on the calculator, and illustration software may still be used for all Care Solutions products.*

Please note, signed illustrations remain a requirement for all submitted business through Dec. 31, 2017.
