Life insurance products contain fees, such as mortality and expense charges, and may contain restrictions, such as surrender periods.

This information should not be considered as tax or legal advice. Clients should consult their tax or legal advisor regarding their own tax or legal situation.

Policy loans and withdrawals may create an adverse tax result in the event of a lapse or policy surrender, and will reduce both the cash value and death benefit. Please keep in mind that the primary reason to purchase a life insurance product is the death benefit.
