

Nationwide CareMatters® II Product Updates – June 12, 2023

Beginning June 12, 2023, Nationwide is implementing a price improvement across all scenarios for the current CareMatters II product. There will be a price decrease for all scenarios, which varies by the characteristics of the case.

In addition, to make CareMatters II more accessible to more clients, Nationwide is lowering the current minimum LTC benefit from \$2,500 a month to \$1,500 a month. WI, SD, and VT require higher minimums.

Please see the attached for more details and applicable states where this change is taking effect. Learn more about the launch here: [CareMatters II Price Improvement Transition Guidelines](#)
