

There for Our Clients through Care Coordination

We are proud to support OneAmerica® policyholders and their family members throughout the journey of a long-term care event. Our promise is to be there for clients when they need us most. That's why we're excited to announce we're expanding our program to include access to care coordination services through CareScout®.

We're enhancing the personalized approach that characterizes our Care Benefit Concierge. By adding access to care coordination services, policyholders and their families benefit from:

- Specialized resources to help them develop a plan of care that aligns to the claimant's need
- Access to more than 100,000 care providers nationwide, including vendor-negotiated discounts and assistance with rate negotiation
- Periodic review of the care plan to help ensure the claimant consistently receives appropriate services
